

Access Healthcare, Inc. — Company Profile

Date: 2026-05-31 • Prepared by: Search Fund Analyst (SAMPLE) Status: IOI Buy-box fit: 34 / 40 • Verdict: Pursue

⚠ Illustrative sample. The operator (Access Healthcare, Inc., East Providence, RI) is a real NPPES-listed organization. All financials, KPIs, ownership, and valuation figures below are **placeholders** to demonstrate the template.

1. Overview

What they do	Medicare/Medicaid-reimbursed skilled home health (nursing, therapy)
Vertical / segment	Skilled home health
HQ / footprint	East Providence, RI • 1 location
Founded	~2008 (<i>illustrative</i>) • Employees: ~60 (<i>illustrative</i>)
Ownership	Owner-operated (<i>illustrative</i>)
Source	NE healthcare M&A advisor

2. Business & Sector

Skilled home health operator serving the Providence metro with a recurring physician/hospital referral base. Defensibility rests on referral relationships, clinical reputation, and survey/compliance track record.

3. Financials (*illustrative*)

Metric	Value	Note
Revenue (TTM)	\$6.0M	Stable/growing
EBITDA / SDE	\$1.1M (18% margin)	Modest owner add-backs
Recurring / contracted revenue	78%	Referral-driven repeat
Revenue growth (3-yr)	~6%	—
FCF conversion	~85%	Low capex

4. KPIs & Operating Metrics (*illustrative*)

- Average daily census ~120; referral sources ~25 active.
- Caregiver retention ~70%; visits/week ~900.

5. Customers & Concentration (*illustrative*)

- **Largest referral source:** 16% • **Top 5:** ~45%
- **Payor mix:** Medicare 60% / Medicaid 25% / commercial 15%

6. Leadership & Transition (*illustrative*)

- **Owner role:** clinical + admin oversight; **not** the sole rainmaker. **Willing to transition** over 12 months.
- **Management depth below owner:** a DON and an office manager — adequate, some key-person risk.

7. Valuation & Deal (*illustrative*)

Asking price	\$5.5M (5.0x EBITDA)
Vertical comp range	4–7x EBITDA
Indicative EV	\$4.4–6.6M
Likely structure	SBA 7(a) + seller note + modest earnout

Buy-Box Scorecard

Criterion	Rating	Score
EBITDA size	Strong	5
Margin	Strong	4
Recurring revenue	Strong	5
Customer concentration	Adequate	4
Owner transition	Strong	5
Industry attractiveness	Adequate	4
EV / financeability	Strong	4
Growth / cash conversion	Adequate	3
Total		34 / 40

Red Flags

- ► Payer-mix concentration in Medicare/Medicaid — reimbursement-policy sensitive.
- ► Thin management bench below owner — succession/retention risk.
- ► EBITDA add-backs unverified pre-QoE.

Role in Roll-Up

Platform candidate for the RI home-health thesis (see [output/search-fund/industry/2026-05-31-home-health-rhode-island/](#)). Scale, margin, and a transition-willing owner make it a credible base for tuck-ins in non-medical home care and hospice.

Top Diligence Questions

1. What is the true normalized EBITDA after a quality-of-earnings review (add-back validity)?
2. How concentrated and durable are the top referral sources, and are any at risk on a sale?
3. What is the survey/compliance history and any open corrective-action plans?
